

The background of the image shows a line of soldiers in silhouette, standing on a dark surface. To their right is the large, dark silhouette of a military aircraft. The sky is a gradient of orange and yellow, suggesting a sunset or sunrise. The entire scene is reflected in a body of water at the bottom.

# UNMATCHED EQUIPMENT FOR YOUR TOUGHEST MISSION

We deliver game-changing equipment and systems to armed forces and law enforcement agencies.

Our main fields of expertise are:

- Forward Repair Systems
- Deployable Repair Workshops
- Deployable MRO Equipment and Facilities
- Unmanned Aircraft Systems
- Loitering Munition Systems
- Advanced Operator and Marksman Equipment
- Small, Medium, and Large Caliber Weapons and Ammunition

We have extensive military experience and broad market knowledge, so bring us your requirement and we will find a solution.

# YOU HAVE CHALLENGES WE PROVIDE SOLUTIONS

We are dedicated to your mission and support in all phases of your acquisition process:

- Development
- Procurement
- Fielding
- Training
- Logistics
- Support

We engage persistently with our clients to meet requirements and deliver cost-effective solutions.

We execute on your decisions to enable readiness and tactical overmatch as detailed in the following cases.

# FORWARD REPAIR SYSTEM NATO

Glaucus ApS is manufacturer and system responsible supplier for the new Forward Repair System NATO (FRSN).

The FRSN M/18 and M/22 are delivered to the Danish Army via a multi-year framework agreement, including all training, documentation, and support services.

The FRSN is a deployable workshop and state-of-the-art multitool for military mechanics, including a 70 kVA generator, 7-ton crane, compressor, welding equipment, and full range of hand and diagnostic tools.

The FRSN is built on a logistic flatrack and completely selfsustained.

The versatility of the FRSN allows combat repair teams to repair almost anything, anywhere and in any conditions. The FRSN is a true game-changer on the modern battlefield.

The FRSN is CE-marked and compliant to relevant standards for safety, operation, and handling.

**More information:** [www.frsn.dk](http://www.frsn.dk)

# DANISH ARMY FRSN M/18

The FRSN M/18 is delivered to the Danish Army via a multi-year framework agreement, including all training, documentation, and support services.

# C20 DESIGNATED MARKSMAN RIFLE

Glaucus ApS is the system responsible supplier of the new designated marksman rifle for the Danish Defence. The delivery is part of a multi-year framework agreement including weapons, accessories, and support services.

The weapon is a customized Colt Canada C20, 7.62x51mm, semi-automatic rifle with a 18 inch barrel and 20 MOA upper rail.

The C20 has been tested and proven to all relevant NATO D14 standards for safety, functionality in extreme conditions, and endurance, having fired 8,000 rounds with no stoppages.

In terms of precision, the C20 achieved an average of .66 MOA over 144 five round groups, collected throughout endurance testing. All groups were shot first round cold with suppressor.

The C20 delivers a light weight and reliable firearm with an unprecedented precision that outperforms the competition. The C20 sets a new standard for this class of rifles.

# PUMA UAS ACCESSORIES

Glaucus Aps provides a wide range of payloads and accessories to the Puma AE UAS platform. This enables the operator to enhance the benefits and capabilities of the system, including:

- Laser Target Designator payloads (LTD)
- Electronic Warfare payloads (EW)
- CBRN payloads (CBRN)
- Mobile Ad Hoc Networking (MANET)
- Landbased and Maritime Landing Nets
- Advance software for 3D mapping, analytics and targeting.

The Puma AE is a small, battery powered and hand launched unmanned aircraft system weighing less than 7 kg. The Puma AE is one of the most widely used systems worldwide.

Glaucus ApS is authorized representative for AeroVironment Inc. in selected territories.

- 2) deliver on time and
- 3) increase customer satisfaction.

**UN global compact**

We support the UN Global Compact initiative and recognize the importance of increased focus on the sustainable development goals by taking action to continuously implement improvements across our business and social actitives.

## PROTECTOR OF SEAFARER

Glaucus was a Greek prophetic god and protector of seafarer. He was originally born mortal and turned immortal upon eating a magical herb. As a god of the sea, Glaucus commonly came to the rescue of sailors and fishermen in storms, having once been one himself.

The company name is chosen based on the founder's values, ethics, and experience as a former military professional and his desire to make game-changing differences for those still in the frontline. Those brave men and women fighting our nation's toughest battles – domestic and abroad.
